

"cuboro creative thinking" - The New Teaching Material for School and Leisure Time

The exciting teaching material "cuboro creative thinking" for the cuboro marble track system is a novel method for a playful training of spatial sense and logical thinking. Due to the tasks in the instructions manual "cuboro creative thinking" which are designed for the basic sets cuboro standard or basis, experiences in geometry, physics, tactical and constructional approaching as well as in technical understanding can be acquired on different learning levels. Coincidental construction of simple marble track systems, finding a solution to given tasks as well as designing complex systems foster creativity, concentrativeness, diligence, patience and, as in group tasks, the ability to work in a team.

"cuboro creative thinking" consists of two self-contained units: a didactic manual as well as a box with task cards.

"cuboro creative thinking" - Didactic Manual

This booklet acts as didactic manual to the task cards with suggested solutions, remarks and explanations. If tasks are used purposefully the cuboro marble track system provides a three-dimensional, multi-purpose teaching aid with which advancement aims from kindergarden level up to gifted education can be fulfilled. Printable templates of all task cards can be found in PDF-format on the included CD-ROM.

"cuboro creative thinking" - Box with task cards

The practical box contains 102 explanation and task cards which are divided into ten subject areas as well as three different levels of difficulty. Thus the selection of tasks according to specific criteria is facilitated.

cuboro webkit at www.cuboro.ch

The parallel to this product free of charge offered cuboro webkit opens up the wonderful possibility of demonstrating and experimenting with the use and the social value of the internet. By solving the task assignments virtually logical thinking and spatial sense are likewise enhanced. By virtually drawing and publishing one's own or by further developing already existing cuboro marble track systems it is possible to participate in a global exchange and construction process.
