

Press release cuboro Ltd.

**cuboro Ltd. - Bridging and profundity
"cugolino sub" and "cugolino magic"**

As addition to the cugolino basic set cuboro Ltd. extends the range of the cuboro marble track system with even two new supplementary sets - «cugolino sub» and «cugolino magic».

With additional tracks and specially milled elements «cugolino sub» allows the construction of longer courses and amusing tunnels or the use of half-planes. The new supplementary set includes eleven construction elements with nine different functions.

An eager customer wish of cuboro players was incorporated into the second new supplementary set «cugolino magic». The new bridge-building kit contains elements which are held together in the air by magnetic force. Without use of supporting elements exciting bridges emerge. «cugolino magic» includes ten elements with seven different functions.

The two supplementary sets are available in specialized trade. «cugolino sub» costs CHF 58.80/EURO 39.80 and «cugolino magic» is available at the price of CHF 87.80/Euro 64.90.
